

Swedish Contribution to EW4ALL

WORLD METEOROLOGICAL ORGANIZATION

Early Warnings for All

The Sida-funded, inter-pillar project is led by the United Nations Office for Disaster Risk Reduction (UNDRR) and designed to support the rollout of the Early Warnings for All (EW4All) Initiative.

JANUARY 2024 - DECEMBER 2025

Improve the quality of country monitoring, observation, and forecasting capabilities through the targeted implementation of Pillar 2 of EW4All.

FOCUS AREAS

Forecasting

Early Warning

Data Management

Service Delivery

Observations

900K US\$

INVESTMENT

5

COUNTRIES COVERED

Bangladesh, Haiti, Liberia, Mozambique, Somalia

OUTPUTS

- Rollout and implementation of EW4All in the target countries
- Status of pillar 2 is reviewed and documented, including gaps, priorities, and needs;
- Technical advice provided for the implementation of pillar 2 on observation, monitoring, analysis and forecasting;
- Strengthened national capacity to coordinate and implement pillar 2 of the national road map on detection, observation, monitoring, analysis and forecasting;
- National capacities related to pillar 2 on observation, monitoring, analysis and forecasting enhanced.
