Enhancing Adaptive Capacity of Andean Communities through Climate Services (ENANDES)

Increase the resilience and adaptive capacity to climate change of highly vulnerable communities in the Andes

FEBRUARY 2021 - JULY 2026

To enhance the capacity of local communities to adapt to a varying and changing climate. This will be done by producing, communicating, and assessing the use of credible and authoritative information as the scientific evidence for decision-and policy making on disaster preparedness.

FOCUS AREAS

Observations
